STORAGE, INSURANCE, AND TRANSFER AGREEMENT

7/31/2026

This Storage, Insurance, and Transfer (S.I.T.) agreement terminates on: _____ and is made effective when the Digital Owner's Token is created by Trumart.com for the Vendor: Founder's _____, hereinafter referred to as the "Vendor," and is between the Vendor and the current holder of the Digital Owner's Token representing the physical asset:

Rolex Everose
Yacht_Master M#
116655

_____. The Smart Contract's address for creation and ownership of this physical asset is: _____ and all transactions related to this smart contract and asset can be viewed on Polyscan at the following URL: <https://polygonscan.com/token/0x89a2D0B223CF3Fac188Eed60ea0F99Bd80776ad6>

ASSET DESCRIPTION:

The Vendor agrees to hold the paid-for merchandise, known as the Asset, for the term limit agreed upon in this contract. The Asset will be securely stored in a vault or safe by the Vendor throughout the storage term. The Asset is described as follows: Rolex Everose Yacht-Master S# 653xxx, with accurate and comprehensive pricing and pedigrees.

STORAGE TERMS:

The Vendor undertakes to ensure the safekeeping and security of the Asset during the agreed storage term, refraining from displaying or removing the Asset while it is tokenized. The Vendor shall maintain comprehensive insurance coverage for the Asset, protecting against loss, theft, and any damages. Additionally, the Vendor will maintain "out of business insurance, bankruptcy and/or additional type coverages which protect property and customers rights" which includes 36 months of additional storage in a bank vault in the event of the Vendor closing shop or going out of business. If the Asset remains unclaimed upon the expiration of the storage contract, the Vendor will retain it for an additional _____ days, subject to a storage fee of **10% of most recent purchase price**. While not obligated, the Vendor may make reasonable attempts to contact the current Asset Token holder through registered email address, push notification, purchasing wallet address, or any other necessary means to prevent the forfeiture of the physical asset. Failure of the owner to respond within 60 days will result in the physical item becoming the property of the Vendor, rendering the Asset Token VOID and no longer linked to the physical asset.

REDEMPTION:

Customers may redeem their Asset/Owner's Token at any time to have their merchandise sent to them. It is highly advisable for customers to contact the Vendor before claiming their merchandise to obtain all relevant details, including shipping arrangements and applicable taxes. The redemption process involves sending the Asset Token to Trumart's Burn Wallet, located at the footer of Trumart.com. Customers are strongly advised against sending their Asset Tokens to any other crypto wallet address, as doing so may lead to the loss of funds and/or the asset.

SECURITY:

The Vendor commits to maintaining a stringent level of security and shall not release an item without the two-step authorization and verification from Trumart. The Vendor will receive encrypted communication from Trumart when an Asset Token is redeemed, signifying that a collector is claiming their physical asset. Once an Asset Token has been issued, Vendors are strictly prohibited from displaying, showing, offering, or removing physical items.

LIABILITY:

The Vendor assumes full liability for physical items and is obligated to carry individual item insurance that covers the latest purchase price of the Asset Token, encompassing insurance against theft, loss, damages, and other relevant incidents. The Vendor shall provide all pertinent insurance information on the tokenized asset's product page on Trumart.com.

EXPIRATION OF AGREEMENT:

All Storage, Insurance, and Transfer Agreements expire. Should a Vendor request to burn the asset token linked to the physical item before a sale is completed within 30 days of listing, a fee equal to 1% of the offered sales price of the item shall be applicable. However, if the Vendor's burn request is made after 30 days from an Owner's Token creation date, no charges will apply.

SIGNATURES:

The undersigned parties have read and agreed to the terms of this Contract. By signing below, the Vendor and Customer acknowledge that they have received a copy of this Contract and affirm its binding nature on both parties.
